XCR[®]

PROFESSIONAL MODULAR WEAPON SYSTEM

Copyright 2013 Robinson Armament Co. All Rights Reserved

Specifications

- Operation:** Adjustable Gas, Piston Driven, Heavy Duty 3-Lug Rotating Bolt
- Length:** 33" Overall with 16" Barrel
27" Overall with Stock Folded
- Rail Length:** 17" Full Top Rail
8" Side & Bottom Rail
- Weight:** 7.5lbs Empty
- Barrel Lengths:** 11", 12", 14.7", 16" and 18.6" in both Heavy and Light contours
- Calibers:** 5.56 NATO, 6.8 SPC, 7.62x39, 5.45x39, 6.5 and others in development
- Colors:** Black, FDE, OD and others upon request

The "Standard" configuration represents the ultimate battle rifle. The ambidextrous ergonomic controls allow the operator to keep his eyes on the target while manipulating the controls with either hand. Not only is the XCR® super reliable and durable, its maintenance is extremely simple, lowering the total cost of ownership.

Specifications subject to change.
Patented and Patents pending.

Specifications

- Operation:** Adjustable Gas, Piston Driven, Heavy Duty 3-Lug Rotating Bolt
- Length:** 27" Overall with 10" Barrel
21" Overall with Stock Folded
- Rail Length:** 15.25" Full Top Rail
6.25" Side & Bottom Rail
- Weight:** 6.5lbs Empty
- Barrel Lengths:** 10" on both Heavy and Light contours
- Calibers:** 5.56 NATO, 6.8 SPC, 7.62x39, 5.45x39, 6.5 and others in development
- Colors:** Black, FDE, OD and others upon request

The "Mini" configuration is ideal for use as a CQC (close quarters combat) weapon or as an entry weapon for law enforcement. Despite its small size, the Mini has the ability to fire full powered rifle cartridges accurately up to at least 200 yards with a 10" barrel.

Note: The XCR "Mini" is an NFA firearm requiring special registration for lawful possession.

ALL NFA RULES APPLY

Specifications subject to change. Patented and Patents pending.

Specifications

- Operation:** Adjustable Gas, Piston Driven, Heavy Duty 3-Lug Rotating Bolt
- Length:** 25" Overall with 7.5" Barrel
18" Overall Folded
- Rail Length:** 13.25" Full Top Rail
4.25" Side & Bottom Rail
- Weight:** 6.2lbs Empty
- Barrel Lengths:** 7.5" (Standard & Mini barrels are compatible, though gas system is visible)
- Calibers:** 5.56 NATO, 6.8 SPC, 7.62x39, 5.45x39, .300 BLK and others in development
- Colors:** Black, FDE, OD and others upon request

The "Micro" configuration is ideal for diplomatic protection or deploying from vehicles or other confined spaces. A shorter stock and shorter barrel allow the Micro to fit in smaller spaces either cased or slung. Despite its size, the Micro has the ability to fire full powered rifle cartridges up to at least 100 yards with a 7.5" barrel

Note: The XCR "Micro" is an NFA firearm requiring special registration for lawful possession.

ALL NFA RULES APPLY

Specifications subject to change. Patented and Patents pending.

Specifications

- Operation:** Adjustable Gas, Piston Driven, Heavy Duty 3-Lug Rotating Bolt
- Length:** 18.5" Overall with 7.5" Barrel on Micro Upper
21" Overall with 10" Barrel on Mini Upper
- Rail Length:** 13.25" Full Top Rail
4.25" Side & Bottom Rail
- Weight:** 5.2lbs Empty
- Barrel Lengths:** 7.5" on Micro Upper
10" on Mini Upper
- Calibers:** 5.56 NATO, 6.8 SPC, 7.62x39, 5.45x39, 6.5 and others in development
- Colors:** Black, FDE, OD and others upon request

The "Micro Pistol" is one of the most compact auto-loading pistols capable of firing full powered rifle cartridges. It is ideal as a personal defense weapon or as a compact high powered pistol for backpacking. A plate on the back of the receiver accepts a QD sling swivel. We also offer pistols based on the Mini platform with 10" barrels.

Specifications subject to change. Patented and Patents pending.

FEATURES

INNOVATIONS

Compatible with Industry Standard M-16 type Magazines, Grips and Sights.

All controls are located so that they can be manipulated quickly with either hand without taking your eyes off target.

INNOVATIONS

FEATURES

Specifications

- Operation:** Adjustable Gas, Piston Driven, Heavy Duty 3-Lug Rotating Bolt
- Length:** 38" Overall with 18.6" Barrel
31" Overall with Stock Folded
- Rail Length:** 20" Full Top Rail
9.5" Side & Bottom Rail
- Weight:** 9.25lbs Empty with 18.6" Barrel Empty
- Barrel Lengths:** 16", 18.6" & 20" in both heavy & light contours
- Calibers:** 7.62 NATO, .260 Rem and others in development
- Colors:** Black, FDE, OD and others upon request

The "Standard" XCR-M is the ideal full powered combat rifle. Like it's smaller brother, the XCR-L, the XCR-M has the same ergonomic controls allowing the operator to keep his eyes on target while manipulating all controls with either hand. Only a barrel is needed to change calibers since all rounds used are based on the .308 cartridge.

Specifications subject to change.
Patented and Patents pending.

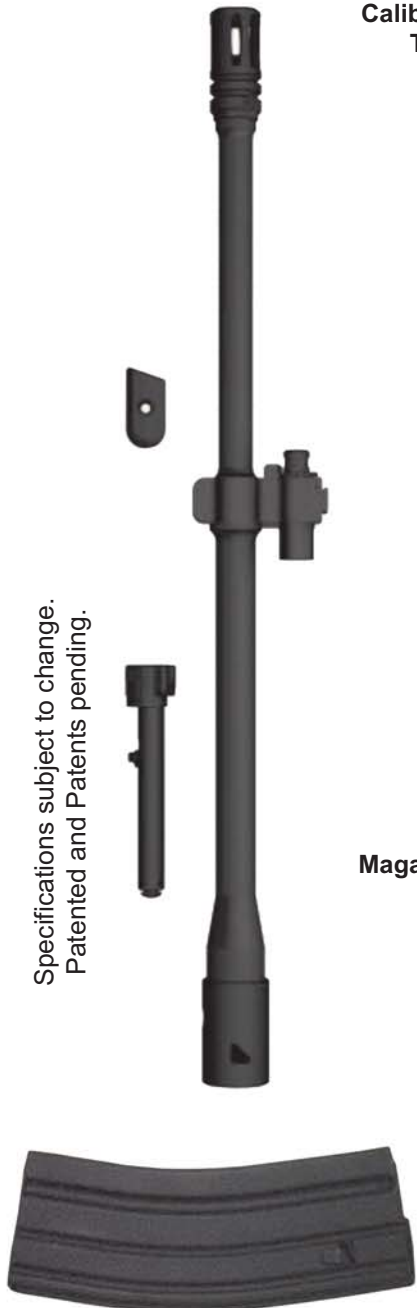

Specifications

- Operation:** Adjustable Gas, Piston Driven, Heavy Duty 3-Lug Rotating Bolt
- Length:** 31" Overall with 13" Barrel
25" Overall with Stock Folded
- Rail Length:** 18.5" Full Top Rail
8" Side & Bottom Rail
- Weight:** 8lbs Empty with 13" Barrel Empty
- Barrel Lengths:** 13", 14.7" & 16" in both heavy & light contours
- Calibers:** 7.62 NATO, .260 Rem and others in development
- Colors:** Black, FDE, OD and others upon request

The XCR-M in "Mini" configuration uses a shorter upper receiver and can accept shorter barrels. Using a 13" or 16" barrel, the rifle is not much heavier than many 5.56 Rifles. The light weight combined with extremely low recoil make the XCR-M Mini the perfect patrol rifle. This rifle is a "Must Have" for the serious professional.
